Content

Silver Burdett Making Music was developed to meet the needs of all students in the state of Kentucky. The program reflects the philosophy of the National Standards for Arts Education.

Student Experiences

Each lesson provides opportunities for students' active involvement with music. Through the development of skills--including singing, playing instruments, moving, creating, reading, and listening--students learn the elements of music and connect to styles, cultures, and other disciplines. Student editions provide an extensive collection of song literature, with popular and contemporary songs, folk and traditional songs, multicultural songs, and seasonal and holiday songs. Each

the national song, Kentucky song, and second and Kentucky song. Each song is attractively presented on a white background to enhance readability.

Assessment

Silver Burdett Making Music provides a variety of tools to help assess students' knowledge and skills. Assessment opportunities can be found in the student edition and in the Teacher Resource Book. Assessments include a variety of strategies and methods that encourage all students to be successful. Every lesson in the program incorporates both formal and informal assessments. Unit assessments in the student edition can be used to measure student progress across lessons that focus on core instruction. Also in the student edition, are ongoing assessments including Show What You Know!, Grades K-6 and Checkpoints, Grades 7-8.

Organization

Silver Burdett Making Music, Grades K-6, has a balanced, two-part organization. Part 1, which comprises Unit 1-6 provides sequential instruction using elements, skills, and connections. In Part 2 of the K-6 program (Units 7-12) students' music knowledge and skills are increased through theme-based activities and lessons. In Grades 7-8, Silver Burdett Making Music features a modular organization that is designed around nine specific music topics.

Silver Burdett Making Music incorporates the rich tradition and history of a company that has served the music education profession for almost 120 years. Because this experience has been merged with applications of the most recent research on learning in music, teachers safely rely on the curriculum, instructional models, and methods that comprise the program. The strong, empirical base of the program is strengthened by the considerable number of authors who are themselves researchers in music teaching and learning and have published works in their specific fields. Many of the authors have specialized in and researched areas such as curriculum design, perception, acquisition of music skills, and repertoire for music learning. Authors for Orff Process, Listening Maps, Signing, Child Voice, Adolescent Voice, and other specific areas, a Multicultural Advisory Panel, and a Teacher Advisory Panel also helped to shape Making Music.

Throughout the development of Silver Burdett Making Music, Pearson Scott Foresman conducted a number of market research studies. During various sessions held across the country, music teachers had the opportunity to review prototype lessons and features of the program and provide feedback to a non-employee, moderator. The data collected were carefully considered during the development of the program. In addition, music teachers were asked to complete song surveys at various national and regional music conferences to ensure the song selections in Silver Burdett Making Music are developmentally appropriate and appealing to students. Teachers indicated if they "would use" or "would not use" a particular song from a complete list of songs from the previous program as well as reviewing some additional songs that were being considered for the new program. Along with the data collected from the surveys, the complete list of songs included in MENC's Get America Singing...Again! Campaign and songs from the Core Knowledge Curriculum were considered for inclusion in the program.

Publisher's Explanation of Reviewer's Comments:

Technology Strengths

Easily accessible and well-indexed. Packaged conveniently.

Instruction & Assessment Strengths

Assessments on CDs. Good quality modeling of vocal technique, interpretation and pronunciation of a variety of styles and cultures.

Organization & Structure Strengths

Well organized and corresponds well with both student text and teachers edition.

Resource Materials Strengths

Voice appropriate, diverse genre performed well.

Technology Weaknesses

Instruction & Assessment Weaknesses

Lacks enough instructional excerpts for practice. Commanding assessments. Assumes prior mastery of K-5 material of this series.

Organization & Structure Weaknesses

Assumes prior knowledge way too often.

Resource Materials Weaknesses

Not enough examples from particular periods of music history.
